PF-010 is a kind of low boiling point solvent for cleaning charged equipment and the diluent of anti-fingerprint agent.

**DESCRIPTION**

- Odorless, non-flammable, non-toxic.
- Extremely low surface tension and good stability.
- Excellent acid & alkali resistant and no corrosion on the electronic parts.
- Non-flammable, volatile, high density, low viscosity and low dielectric constant.

**TYPE**

![PF-010 structural formula]

**FEATURES**

- Odorless, non-flammable, non-toxic.
- Extremely low surface tension and good stability.
- Excellent acid & alkali resistant and no corrosion on the electronic parts.
- Non-flammable, volatile, high density, low viscosity and low dielectric constant.

**TYPICAL PROPERTIES**

**APPLICATION**

- Insulating liquid for cleaning charged equipment.
- Air tightness test for electronic parts or electronic device.
- Precision electronic parts cleaning.
- Fluorine polymer solvent etc.

**STORAGE AND HANDLING**

- Available in 25 kg/barrel or 200kg/barrel.
- Store products in tightly closed original containers at 5-40°C.
- Shelf life: 12 months from delivery date.
- According to non-dangerous goods transport.
